

Island Air Flight School & Charters Inc.

Weather Policy

For your safety, the following limitations must be observed:

Dual Cross-Country Flights: Done at the discretion of the instructor, keeping in mind the student must derive a learning benefit from this experience. Do not assist anyone in developing unsafe habits.

Solo Cross-Country Flights: This will depend on the student's ability, preparation and confidence level. All instructional flights require a pre-flight briefing by a qualified instructor. SAFETY FIRST

Solo Student: Maximum Wind Shear is 0 (zero)kts
